MADICO[®]

The Clear Choice for Decorative Film

Easily Add Decorative Elements to Interior Spaces

Madico's Decolite designer films elegantly enhance the look of glass. These decorative window films allow you to easily retrofit existing glass with an array of classic patterns to complement any décor. With Decolite film you can achieve the distinctive look of etched glass at a fraction of the cost.

A truly customizable product, the films can be cut into a one-of-a-kind design for your unique setting. You can create private, interior glass spaces while still welcoming in light. The ease of installation and affordability of Decolite products make them the obvious choice when customizing interior glass. An array of patterns are available for any commercial or residential application.

Benefits of Decolite Films:

- Add privacy to open spaces
- Enhance interior design
- Increase visibility of clear glass
- Block up to 99% of UV rays
- Soften glare
- Scratch resistant
- Less costly than etched glass
- Removable

Common Applications:

- Glass entry doors
- Retail windows and displays
- Office buildings
- Spas and fitness centers
- Bathroom windows and glass
- Schools
- Reception areas

Caring for Decolite film is easy - simply clean with a soft cloth, mild soap and water, then rinse with water. When cleaning near seams in the film, wipe in the direction of the seam.

Decolite designer films are intended for interior installations only and should not be installed in extremely humid or wet environments such as steam rooms or indoor pool enclosures.

When you purchase Madico film, you can rest assured that you have selected a high quality and extensively tested product. Headquartered in the Tampa Bay region of Florida, Madico manufactures and distributes high performance window films for automotive, architectural, and safety and security applications through nine company-owned distribution centers in North America as well as an extensive international distribution network.
